The College of Business and
Economics at Qatar University

Education with Impact

Welcome to the College of Business and Economics (CBE) at Qatar University.

Within the pages of this booklet, you will learn about the College of Business and Economics and the array of support and opportunities it holds for you.

At CBE, we are dedicated to business education with impact. Our ultimate goal is to nurture future leaders and catalysts of positive change.

CBE Vision

To lead regionally in providing business education and conducting research that advance sustainable development and create a positive societal impact.

CBE Mission

To produce competent and socially responsible graduates committed to make a positive impact in their organizations and communities. Through applied research and industry collaborations, we develop innovative solutions to business and societal challenges in Qatar and beyond.

CBE Values

- Integrity – as the guidance in all our activities
 - Collegiality – as a fundamental principle that governs our behaviors.
 - Respect – as the bond with which we value inclusion, diversity, and local culture
 - Excellence – as a driver for teaching, research, and services
 - Commitment – as the self-driving imperative for continuous improvement
 - Social and Environmental Responsibility – as a core principle that guides our business practices and promotes equity, ethics, and the welfare of our communities
 - Engagement – as the manifestation of full involvement with our stakeholders
- 

Dean's Message

Welcome to the College of Business and Economics (CBE), where innovation meets education. Our programs empower students to transform their ideas into successful ventures and sustainable enterprises. Through rigorous coursework, we cultivate skills for effective leadership and ethical management across diverse contexts.

Our Bachelor of Business Administration (BBA) offers six majors and numerous minors. For advanced studies, we provide a range of graduate programs including a PhD in Business Administration, various Master's degrees, and an Executive Master Program in Leadership.

Internationally recognized for quality, CBE holds accreditation from the Association to Advance Collegiate Schools of Business (AACSB). We are particularly proud of our AACSB-accredited accounting program.

In a dynamic world, business and education must evolve together. We continually update our programs to equip graduates for evolving job markets and societal challenges. Two new minors launch this fall—Entrepreneurship and Innovation, and Business Analytics—with more innovations on the horizon.

Our faculty conducts impactful research and offers immersive learning. As educators, we aim to instill compassion and responsibility. Beyond financial value, we emphasize social and environmental impact.

Recent years have revealed global challenges—unsustainable practices, inflation, political instability, and climate change. CBE tackles these issues by nurturing leaders who drive positive change. Our Center of Entrepreneurship and Organizational Excellence promotes innovation for sustainability.

Joining CBE means becoming part of a robust network of students, faculty, alumni, and partners. Our graduates excel in leadership and entrepreneurship, making positive contributions to the community.

Whether you are considering CBE or you are already part of our family, explore our programs, faculty, and news on our website. The future of business starts here.

Welcome to CBE!

Prof. Rana Sobh
Dean of College of Business and Economics

Study Plan

Dear students,

We want to make sure you are aware of the study options available at the College of Business and Economics. You have **a choice between two languages: Arabic and English**. What is important is that you pick one track – either Arabic or English – and stick with it until you complete your studies.

Now, here is the part where your involvement comes in. It is on you to stay on top of things by regularly checking and following your study plan. Do not worry, though. You will not be alone in this journey. Our Academic Advisors are here to guide you every step of the way.

If you are leaning towards the English track, there is a requirement to meet. You will need either to pass an English language test or score a **minimum of 5.5 in the IELTS test**. We believe in your potential, so go ahead and prove your English proficiency.

For more details and support, feel free to visit

Remember, this is your educational path, and we are here to help you make the most of it.

Best of luck!

Greetings,

We are thrilled to introduce you to the dynamic world within the College of Business and Economics, where endless opportunities await. Our college comprises three dynamic departments and a dedicated Center for Entrepreneurship, offering a holistic and comprehensive business education. Students should choose one major and one minor from the below diagram.

1. Finance and Economics:

In this department, we are dedicated to equipping you with the knowledge, skills, and values essential for success in the finance, economics, and banking sectors. You have the chance to specialize in two majors: Finance and Economics. These majors emphasize critical skills like problem-solving, collaborative learning, and applying knowledge to real-world business challenges. Not only in Qatar but across the GCC region. As an undergraduate student, you will gain hands-on experience in your chosen major through our enriching internship program.

Unlock Exciting Careers:

Your career options are diverse and promising:

- Become an Investment Analyst, providing insights into investment strategies.
- Thrive as a Financial Consultant, offering comprehensive financial advice.
- Make a mark as a Risk Analyst, ensuring financial stability through risk management.
- Excel as a Data Analyst, translating financial data into actionable insights.

Remember, you can customize your path based on strengths and interests, adapting to industry changes with networking, internships, and ongoing learning.

Minors Available

1. Entrepreneurship and Innovation

To provide students with contemporary knowledge and skills that enhance creativity and entrepreneurial mindset, and recognize business opportunities. It introduces the role of the entrepreneur, innovation, and technology in the entrepreneurial process. Being entrepreneurial is not necessarily for starting a new venture, but it is necessary for seeking opportunities and taking action to bring those opportunities into reality. It consists of building something from nothing, where successful entrepreneurs know how to spot new opportunities and build business models around them.

2. Business Analytics

The Business Analytics minor provides students with a strong foundation in data analysis, statistical modeling, and data-driven decision-making. In today's data-driven world, businesses are increasingly relying on analytics to gain insights, optimize operations, and drive strategic initiatives. This minor equips students with the necessary skills to extract meaningful information from large datasets, develop predictive models, and effectively communicate insights to key stakeholders. Graduates with a Business Analytics minor find opportunities in roles such as data analysts, market researchers, business intelligence analysts, and data scientists.

3. Taxation (Co-shared Minor with Department of Finance and Economics)

The Taxation minor, offered in collaboration with the Department of Finance and Economics, provides students with a comprehensive understanding of tax laws, regulations, and practices. With a focus on corporate taxation, students gain valuable knowledge in tax planning, compliance, and research. The complexity of tax laws creates a demand for professionals who can navigate the intricacies of the tax system. Graduates with a Taxation minor find rewarding career opportunities in public accounting firms, corporate tax departments, law firms, and government agencies.

Student Engagement Services

1. **Center for Entrepreneurship & Organizational Excellence (CEOE)**

Welcome to CEOE, your launchpad into the world of business and entrepreneurship. We are the vital link between the College of Business and Economics and Qatar's dynamic business community. Join us to:
