

College	Level	requirement
College of Engineering	MSc student	MSc students should have at least 1 publication (e.g., book chapter, conference paper, etc.) or participate in a poster session.
	PhD student	<ol style="list-style-type: none"> 1. PhD students who are on the conventional-based PhD (course-based PhD), should have published at least two international journal papers meeting the indexing conditions to meet the publication requirements. 2. PhD students who are on the research-based program should publish at least 2 indexed journal articles (Q1 or Q2).
QU Health	PhD student	<p>publication for graduation is requires In QU Health, the only program the the PhD program in Health Sciences which has 2 tracks (Biomedical and pharmaceutical sciences) and the (biomedical and population health track). The requirement is 3 research outputs.</p> <p>2 publications should be research articles with the student as the first author, while the third may be a review paper or those mentioned in point# F of article 16 of the graduate studies.</p> <p>Note: the first co-authorship can be accepted for one article only and will be counted for 1 PhD student only towards fulling the PhD graduation requirement.</p>

College of Health Sciences	MSc student	There are no publication requirements for graduation from the MSc in Biomedical Sciences program.
College of Pharmacy	MSc student	There are no publication requirements for graduation
College of Arts and Sciences	MSc student program at the Gulf Studies Center	<p><u>Publication Requirements for the MA- OGS manual page 12 section: (d):</u></p> <ul style="list-style-type: none"> • <u>Accomplish one of the following research outputs prior to graduation:</u> <ul style="list-style-type: none"> ○ Publish or acceptance of publication of a research article, review paper, or a concept paper in a scientific, peer-reviewed journal ○ Publish or acceptance of publication of a book chapter ○ Other research outputs as determined by the college and approved by the Associate Dean for Research and Graduate Studies in the college, College Dean, and the approval of the Dean of Graduate Studies.
	PhD student program at the Gulf Studies Center	<p><u>Publication Requirements for the PhD- OGS manual page 14 sections: (e) and (f).</u></p> <ul style="list-style-type: none"> ○ Publish or acceptance of publication of, at least, one research article (for course-based programs) and, at least, two research articles (for research-based programs) in a scientific, peer-reviewed journal ○ Publish or acceptance of publication of one of the following additional research outputs prior to graduation: <ul style="list-style-type: none"> ▪ Review paper ▪ Book chapter ▪ Conference paper at a peer-reviewed conference ▪ Concept paper ▪ Other research outputs as determined by the college and approved by the Associate Dean for Research and Graduate Studies in the college, College Dean, and the approval of the Dean of Graduate Studies.

College of Arts and Sciences	Master in applied statistics	<p>“Accomplish one of the following research outputs prior to graduation”</p> <ol style="list-style-type: none"> 1. Publish, acceptance or submission of an research article in a scientific peer-reviewed journal. 2. Participation with a poster or an oral presentation in a national or international scientific conference or event.
College of Arts and Sciences	Master in Environmental Science program	<p><u>The student should accomplish one of the following research outputs for graduation:</u></p> <ol style="list-style-type: none"> 1- Publish or acceptance of a research article, review paper or a concept paper in a scientific peer-reviewed journal. <u>The research results must be extracted from his/her MSc research work.</u> 2- Publish or acceptance of publication of a book chapter, related to her/his MSc research topic 3- Other research outputs as participation with a poster or oral communication in national or international scientific event related to his/her research field.
College of Arts and Sciences	Master in Materials Science & Technology	<ul style="list-style-type: none"> - The requirements of the program are similar to the ones in the QU graduate policy, which states that the student should accomplish one of the following research outputs for graduation: <ol style="list-style-type: none"> 1. Publish or acceptance of a research article, a review paper, or a concept paper in a scientific peer-reviewed journal. The research results must be extracted from his/her MSc research work. 2. Publish or acceptance of publication of a book chapter related to her/his MSc research topic - Other research outputs as participation with a poster or oral communication in national or international scientific event related to his/her research field.

<p>College of Arts and Sciences</p>	<p>PhD in Biological and Environmental Sciences</p>	<p>The student should:</p> <ol style="list-style-type: none">1- Publish or acceptance <u>of at least one research article</u> in a scientific peer-reviewed journal. <u>The research results must be extracted from his/her PhD research work.</u>2- Publish or acceptance of one of the following additional research outputs prior to.<ol style="list-style-type: none">a. More research articles (from the PhD research)b. Review paper graduation (The research should be related to the PhD topic)c. Book chapter graduation (The research should be related to the PhD topic)d. Conference paper at a peer-review conference graduation (The research should be related to the PhD topic)e. Concept paper graduation (The research should be related to the PhD topic)f. Other research outputs graduation (The research should be related to the PhD topic), approved by the department
